The Disaster that Romneycare is Becoming

Guest post by Robert Wenzel.

Anyone who understands basic economics and how interventionist government leads to greater interventionist government knew this was going to happen. Market price signals are destroyed, supply and demand distortions start to occur and the regulative power centers are captured bu insiders. Costs go up, care goes down and the only solution the interventionists can think of are more interventions… Bottom line, healthcare in Massachusetts, i.e. Romneycare, is becoming a centrally planned sewer pit. And Obamacare is Romneycare on steroids.
