

8 Reasons To End Prohibition

Guest post by J.G. Vibes.

The drug war is one of the most misunderstood subjects in the mainstream political dialogue, even among people who are sympathetic to the plight of responsible drug users. It is rare for someone to come out and say that all drugs should be legal, but in all honesty this is the only logically consistent stance on the issue. To say that some drugs should be legal while others should not is still giving credence to the punishment paradigm and overlooking the external consequences of drug prohibition, or prohibition of any object for that matter.
