

Expertocracy / Idiotocracy

Nobody asked but ...

Carl Sagan Technology Quotes

The same can be said for logic, empathy, history, philosophy, spirituality, morality, ... voluntaryism. The one thing that a large part of humanity can understand is self-ownership. We all have to be confronted with it. It is inevitable from birth. The better ones of us learn the truth when our truthseeking powers are at their greatest. The bewildered learn it only as they die.

Kilgore
