

Ignorance of “The Law”

What’s one of the most ignorant things a statist can say? *“Ignorance of the law is no excuse.”* That’s just about the *dumbest* thing that can ever come out of someone’s piehole.

It’s completely wrong. It has zero truth. It has no merit whatsoever. It is a lie told to justify molestation.

Not only that, but police are always enforcing “laws” which only exist in their own minds. If that’s not “ignorance of the law”, then what is? And they seem to always get away with it, so it must be a *very* good excuse- at least for the Blue Line Gang.

Instead, making up a “law” is no excuse. A “law” can never give anyone a real excuse to molest people.

It doesn’t matter if it’s “illegal” to not wear a seat belt. That “law” is no excuse to stop and rob someone for not wearing one.

It doesn’t matter if a particular weapon is “illegal” somewhere, or that carrying it in a certain way is against the “law”. The “law” is no excuse to violate the natural human right to own and to carry weapons.

It doesn’t matter if it’s “illegal” to ingest certain substances. No “law” can ever give someone the excuse to behave as though they own your body.

It doesn’t matter if it’s “illegal” to fight back against molestation by armed government employees. No “law” can ever abolish your natural human right to defend your life, liberty, or property.

Ignorance of the “law” is not only a great excuse, it’s the only excuse needed when the “laws” are almost all counterfeit. Ignorance of ignorant legislation which violates natural law can never be a real crime. Anyone claiming otherwise is looking for an excuse to molest you while pretending to be the good guy. You are not obligated to allow yourself to be victimized by that person.
