

Pam Laricchia Reviews Unschooling Dads

Senior unschooling mom Pam Laricchia reviewed my latest book,

Unschooling Dads is an engaging peek into what unschooling looks like from the dad's perspective. It's one we don't often hear about, though they are active participants in many unschooling families. I really appreciate Skyler taking the time to seek them out and bring their insights and experiences together!

The full review can be found [here](#).
