

Proof Copy in My Hand

I've got the physical proof copy of the book in my hand, and it looks great! However, the cover image seems to have been re-sized a bit. I'm in talks with the printer about this to find out what needs to be fixed, my end or theirs. We should have release this week. The entire process with the printer ([CreateSpace.com](https://www.createspace.com)) has been surprisingly simple.
