

Religion and Freedom

Written by Robert A. Sirico for The Future of Freedom Foundation.

[One] frequently hears the objection that in order to believe in God and morality, almost all means, including the mechanism of the state, are justified to promote and advance these worthy ideals. Likewise there is often, among the friends of liberty, a certain confusion, and even an inflation in the importance of liberty in human life. It is my intention, in this brief essay, to explore a number of these confusions and offer a perspective that I hope will bring some clarity of thought.
