

Teach Your Children Well

Written by tzo for Strike The Root.

Government is actually a subset of the annoyingly persistent “external authority” meme, and *that*—underneath it all—is the real root that needs striking. A child may become exposed to multiple sources of “external authority” and may quite reasonably consider all of them to be of the same archetype, and so an attack on government alone while allowing exceptions for the other logically-parallel institutions may not make too much sense.
