

Vermont Voluntaryists on Facebook

I am seeking to ramp up voluntaryist activism and interest in voluntaryism in general here in Vermont. In October, 2011, I launched the [Vermont Voluntaryists Facebook Page](#), yet to date, most members are non-residents. So while all interested in the transition to a voluntary society are still welcome to join, I'm especially interested in more Likes from Vermont. If that's you or perhaps someone you know, please help spread the word. I'm also open to suggestions as to how future posts might be crafted in order to pique interest in voluntaryism specifically in Vermont. Thank you.
