

Agorism and Nazism: A Study in Polar Opposites

Written by Neil M. Tokar, as published at the Center for a Stateless Society.

Perhaps one of the most impressive examples of the counter-economics idea in action is that of what businesspeople did in order to evade the price control laws of Nazi Germany. It also gives me the opportunity to bring to light an issue that seems to be neglected; nevertheless, it does play an important role in undermining the establishment of state sovereignty.
