

Assmanship

Nobody asked but ...

This singular game, which is so costly and so ruinous and so silly, is called statesmanship—which is different from assmanship on account of the spelling. — Mark Twain

Surely this drumbeat for war is a sign, **again**, that the folks known as *neo-cons* will gravitate to any side if it gets them war. They certainly are not conservatives as defined in my lexicon. Literally, conservatives would be obsessive about conserving human values, one of which should not be about war. By urging war in Iraq, the neo-cons will make of the current POTUS a *war president*. He and his successor will be war presidents, and all his successor needs to do is march in lockstep on this war. And we already know she is a darling of the neo-cons.
