

Complaints Kicked in Utah, California, Massachusetts and New York

Sorry these took so long, there are more but I have to find them, it's been a good year so far for dismissals.

There are no major charges this time, but all code violations and those are the same as serious code violations. The prosecution is making the same basic claims, such as claiming the laws apply just because you're physically in Utah (et al). That is the basis of personal and subject matter jurisdiction and the prosecution has no evidence to prove it.

Congrats to everyone for standing up to these predators and getting dismissals. And thanks for providing me with the following proof.
