

Entanglements II

Nobody asked but ...

George Washington spoke, “It is our true policy to steer clear of permanent alliance with any portion of the foreign world.” I was reminded of this when I recently read an article covering the revelation of how lost America is in matters of foreign policy. The article was written by Laurence Vance, published by The Future of Freedom Foundation, “The Impeachment Hearings Inadvertently Show the Insidious Nature of U.S. Foreign Policy.”

Quantum physicists will tell you that entanglements permanently, forever, affect the behavior and essential nature of all entities thereby bound. When nation A aligns with nations B, C, D, . . . , nation A aligns with all that is either good or bad with those nations. Think about it — two or more of the major 2020 candidates for POTUS are indelibly connected with the Ukraine. Everyone who votes in 2020 will be required to make a statement about this country’s relationship with the Ukraine. Our misleaders have made this statement (whatever its implications) for the citizens of the USA.

Thank you, but “no.”
