

First, They Ignore You

Plenty of anarchists have noticed that the media, the politicians, even the Orange Fuhrer himself, have been mischaracterizing, demonizing and condemning “anarchists.” State-worshipping leftists—whether they are genuine but stupid people or “government” plants—are displaying the “A” symbol while being moronic vandals. And that is what the media covers, and how they portray “anarchists.”

As frustrating as it may be for us voluntaryists, this is actually a very GOOD sign. We’re at stage three.

“First they ignore you, then they laugh at you, then they fight you, then you win.” – Gandhi

Actual anarchism (not the bomb-chucking, entitlement-mentality commie brats’ version) has been growing by leaps and bounds, to the point where the parasite class knows they can’t just ignore it anymore. So expect the slander and vilification to continue, and to get worse.

But expect the cult of statism to fall anyway.
