

International Wrecking Ball

Nobody asked but ...

POTUS says Germany is a captive of Russia. But the USA is a captive of its own military — and now here comes the Space Force.

The problems of the USA *vis* NATO are direct consequences of the size, the gross excessiveness, of the PMIC (Politico-Military Industrial Complex).

The whole world is captive to this behemoth.

Let's see POTUS maintain the behemoth without the NATO pact.
