

Liberty vs. War: A Brief History

Written by Jeffrey M. Herbener for Mises.org.

We see through the lies and sophisms of pro-state ideology because we have accepted the truth advanced by those who champion liberty. Extrapolating from our experience, we can see that anti-state ideology is a necessary condition to establish and maintain liberty. The advantages it has over pro-state ideology are, first, it appeals to the interests of the majority and, second, it is grounded on truth about the nature of human action. While liberty is consistent with human action, the state is founded on a contradiction, namely, that the only way to have an institution to protect our rights is to establish it on the violation of our rights.
