

# My Input on the Constitution

Nobody asked but ...

There were always people wanting to disarm the public. That's why we have a second amendment as well as a constant assault on it.

John Wayne, Charlton Heston, Wayne Lapierre are not my heroes. They are parasites who sought to cash in on the sky is falling syndrome.

I will always have a firearm regardless of rules forged in smoke-filled rooms. It is my right as a natural born human.
