

Peter Leeson: Why Self-Governance Works Better Than You Think (1h7m)

This episode features a lecture by economics and law professor Peter Leeson from 2016. Leeson uses rational choice theory to explore the benefits of self-governance. Relying on experience from the past and present, Professor Leeson provides evidence of anarchy 'working' where it is least expected to do so and explains how this is possible. Provocatively, Leeson argues that in some cases anarchy may even outperform government as a system of social organization, and demonstrates where this may occur.
