

# Philosophy of Voluntaryism 003 – The Unintended Consequences of Taxation (60m)

Philosophy of Voluntaryism 003 is a look at taxation, by Danilo Cuellar and Jim Limber Davis. “The unintended consequences of taxation are nearly infinite. What doesn’t have to be is our nescience about them. By understanding wealth, how it is created, and what its purpose is we can break down the idea of taxation and show the world what it really is: a practice befitting a less civilized, intelligent, and courageous period of humanity’s history.”
