

Randy Barnett: Polycentric Legal Orders (49m)

This episode features a talk by lawyer and legal theorist Randy Barnett from 1997. He speaks broadly on various methods of constraining state power including federalism and the separation of powers, the power of exit, and existing and theoretical polycentric legal orders. Barnett suggests that two simple rules must be present for polycentric orders to work: a “nonconfiscation principle,” and a “competition principle.” Purchase books by Randy Barnett on Amazon [here](#).
