

The Anti-Educational Effects of Public Schools

Guest post by Gennady Stolyarov II.

With so many state governments' budgets now under severe strain, there are serious discussions throughout the country about whether or not to cut state funding to public education — an expenditure that, in some states, consumes more than half the budget. Unfortunately, because of extensive resistance by teachers' unions and other parties with a vested interest in the status quo, fundamental changes to the system will be fought every step of the way. At the same time, however, it is useful to acknowledge that public schools do not just do a suboptimal job at educating the young: much in the environment of the public school is directly contrary to genuine education.
