

The Worst Education System

Public schools are the worst education system imaginable. In addition to the trillions of dollars which are stolen to fund such a monstrosity, the curriculum itself is statist brainwashing beginning with the earliest forms of pre-kindergarten.

In such an environment, learning is merely a pretext for the coerced transformation of healthy, vibrant children into statist drones whose lives will be sacrificed to the machinery of oppression and subjugation in pursuit of the further consolidation of wealth and power into the hands of the world's most dictatorial megalomaniacs.
