

Words Poorly Used #108 — Foreseen

Now Diane Feinstein, a U. S. Senator (D, CA) wants to ban workarounds from previous bans. She seeks to address “unforeseen” consequences. When you pass laws tinkering with machines, the machine tinkerers will supersede your laws. That is not unforeseen. That is ignorance, ignoring every likelihood, kicking the can down the road. Gun control is a useless stopgap. As are further bans on rapid fire devices meaningless. Grandstanding?
